

Are you ready to make your next asset purchase?

Whether you are looking to introduce new or more operationally efficient equipment into your business; or if you are looking to implement a sustainability strategy that includes investment in equipment, having access to funds and being able to do so in the most cash efficient way is a key business consideration in today's competitive market.

At Mitsubishi HC Capital Europe, we can help you realise these ambitions by providing a range of flexible finance solutions which can be used for the purchase of new or used equipment.

Equipment we finance

- Construction and heavy plant machinery
- Materials handling equipment
- Manufacturing/industrial equipment
- Commercial print press
- Healthcare technology
- Sustainable and energy efficient solutions
- Waste and recycling management

Finance solutions

Our range of finance solutions includes:

Hire Purchase – for businesses who want to pay for equipment over time and then take ownership at the end of the agreement term

Financial Lease – for businesses who want to have ‘use’ of equipment for a fixed period of time and not ownership

Operational Lease – for businesses who want to have ‘use’ of equipment for a fixed period of time but where the rental payments assume a ‘residual value’ in the pricing at the end of the agreement term, thereby helping to reduce the monthly cost

Rental – for businesses wanting to incorporate all service and maintenance costs in with the monthly cost of leasing the equipment

Please note: finance products vary from country to country

Why use finance?

- Affordability – it allows for investment in multiple assets at the same time
- The equipment of choice can be bought rather than what the cash budget dictates
- Improves cash flow efficiency
- Makes budgeting and forecasting easier
- Preserves working capital – allows for investment in core business areas
- Flexible payment terms – can be tailored to usage, income and/or seasonal cash flow
- Provides an additional line of credit without affecting bank lines
- Pay as you use – spreading payments over time reduces Total Cost of Ownership
